

Disabilities and Risk Factors from Birth

30 Hour Seminar Course

This course is designed to assist the learner in identifying risk factors and disabilities from birth. You will be provided with information regarding symptoms, diagnosis, treatment and family adjustment to various disabilities. You will also review healthcare, family support, and safety considerations as they relate to the various disabilities outlined in this manual. You will be asked to review websites, publications, and videos as part of this course, please do so thoroughly as it is important for successful completion of this course. If you have any questions you may contact Doreen at doreen@nowac.com
